

El Paso County Metals Site Timeline

2003				2004	
<p><i>September</i></p> <ul style="list-style-type: none"> EPA requested sampling access to 289 residential properties (Mission Hills and Rio Grande areas). 	<p><i>October</i></p> <ul style="list-style-type: none"> A community facilitated meeting held October 20, in the mayors's office. Removal activities will continue until \$7 million is expended. Three work groups -- technical, real estate, and innovative technologies -- were established to allow for better communication between the city, the HOAs, and the regulators. EPA requested access to 60 residential properties.(Kern Place, Sunset Heights, and Rio Grande). EPA requested signed access letters from 100 residential properties for Segundo Barrio and has received 65. 	<p><i>November</i></p> <ul style="list-style-type: none"> Community meetings will be planned with the City of El Paso. Plan for testing in Segundo Barrio. 	<p><i>December</i></p> <ul style="list-style-type: none"> Conduct public availability sessions. Continue yard cleanup activity. 	<p><i>January</i></p> <ul style="list-style-type: none"> Currently we have completed removals on over 275 residential properties of the 781 identified as contaminated. The removals being done are in Sunset Heights, Rio Grande, Rim and Kern Place areas at the present time. These removal activities will be completed by the end of January 2004. 	<p><i>February</i></p> <ul style="list-style-type: none"> EPA will complete cleanup - and restoration actions in February 2004. At that time for EPA to continue cleanup activities, the site will have to be proposed to the Superfund National Priorities List.
